

DIVI PROJECT TOKEN PURCHASE AGREEMENT

Last Updated: September 12, 2017

This Divi Project Token Purchase Agreement (this “Agreement”) contains the terms and conditions that govern your use of the Divi Project distribution smart contract (the “Divi Project Distribution Contract”); use of the related ERC-20 Divi Project token smart contract (the “Divi Project Token Contract”); and purchase of the related ERC-20 compatible tokens distributed on the Ethereum blockchain (the “Divi Project Tokens”) and is an agreement between you or the entity that you represent (“Buyer” or “you”) and Divi Project (“Divi Project,” together with its parent company, subsidiaries and affiliates, “Company”). Buyer, Divi Project and Company are herein referred to individually as a “Party” and collectively, as the “Parties”.

NOW, THEREFORE, in consideration of the mutual representations, warranties and agreements contained in this Agreement, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Company and Buyer hereby agree as follows:

IMPORTANT INFORMATION: PLEASE READ THIS AGREEMENT CAREFULLY AND IN ITS ENTIRETY.

Buyer acknowledges, understands and agrees to the following:

- **MATTERS RELATING TO Divi Project SOFTWARE AND Divi Project PLATFORM:**
- Divi Project is developing the Divi Project software (the “Divi Project Software”) as further described in the Divi Project Technical White Paper (as it may be amended from time to time) (the “White Paper”);
- at the end of its development stage, Divi Project will be releasing the Divi Project Software it has developed under an open source software license;
- Company will not configure and/or launch any public blockchain platform adopting the open source Divi Project Software (the “Divi Project Platform”) for any purpose;
- Any launch and implementation of the Divi Project Platform may occur by third parties unrelated to Company;
- Third parties launching the Divi Project Platform may delete, modify or supplement the Divi Project Software prior to, during or after launching the Divi Project Platform; and
- Company will have no control over when, how or whether the Divi Project Software is adopted or implemented, or how, when or whether the Divi Project Platform is launched.
 - **BINDING AGREEMENT:** Buyer understands and agrees that Buyer is subject to and bound by this Agreement by virtue of Buyer’s purchase of Divi Project Tokens.

- **NO U.S. PURCHASERS:** Divi Project Tokens are not being offered or distributed to U.S. persons (as defined below). If you are a citizen, resident of, or a person located or domiciled in, the United States of America including its states, territories or the District of Columbia or any entity, including, without limitation, any corporation or partnership created or organized in or under the laws of the United States of America, any state or territory thereof or the District of Columbia (a “U.S. person”) do not purchase or attempt to purchase Divi Project Tokens.

Divi Project TOKENS HAVE NO RIGHTS, USES OR ATTRIBUTES. The Divi Project Tokens do not have any rights, uses, purpose, attributes, functionalities or features, express or implied, including, without limitation, any uses, purpose, attributes, functionalities or features on the Divi Project Platform. Company does not guarantee and is not representing in any way to Buyer that the Divi Project Tokens have any rights, uses, purpose, attributes, functionalities or features.

- **NOT A PURCHASE OF Divi Project PLATFORM TOKENS.** Divi Project Tokens purchased under this Agreement are not tokens on the Divi Project Platform. Buyer acknowledges, understands and agrees that Buyer should not expect and there is no guarantee or representation made by Company that Buyer will receive any other product, service, rights, attributes, functionalities, features or assets of any kind whatsoever, including, without limitation, any cryptographic tokens or digital assets now or in the future whether through receipt, exchange, conversion, redemption or otherwise.
- **PURCHASE OF Divi Project TOKENS ARE NON-REFUNDABLE AND PURCHASES CANNOT BE CANCELLED. BUYER MAY LOSE ALL AMOUNTS PAID.**
- **Divi Project TOKENS MAY HAVE NO VALUE.**
- **COMPANY RESERVES THE RIGHT TO REFUSE OR CANCEL Divi Project TOKEN PURCHASE REQUESTS AT ANY TIME IN ITS SOLE DISCRETION.**
- **PLEASE READ THE RISKS SET FORTH IN SECTION 7 CAREFULLY AND IN THEIR ENTIRETY.**
- **THIS AGREEMENT INCLUDES PRE-DISPUTE RESOLUTION IN SECTION 9.1 AND REQUIRES ARBITRATION IN SECTION 9.2.**

ARTICLE ONE: ACCEPTANCE OF AGREEMENT AND PURCHASE OF DIVI PROJECT TOKENS

1.1. This Agreement shall be effective and binding on the Parties when Buyer: (a) clicks the check box on the official <https://diviproject.org> website (the “Website”) to indicate that Buyer has read, understands and agrees to the terms of this Agreement; or, if earlier (b) upon Company’s receipt of payment from Buyer. Buyer agrees to be bound on this basis, and confirms that Buyer has read in full and understands this Agreement and the terms on which Buyer is bound.

1.2. Website Terms of Use. Company has established Terms of Use, as may be amended from time to time, for the Website located at <https://diviproject.org> which are hereby incorporated by reference. Buyer has read, understands and agrees to those terms.

1.3. White Paper. Company has prepared the White Paper, which is available at <https://diviproject.org>, describing matters relating to the Divi Project Software. The White Paper, as it may be amended from time to time, is hereby incorporated by reference. Buyer has read and understands the White Paper and its contents.

1.4. Divi Project Tokens.

a. No Purpose. As mentioned above, the Divi Project Tokens do not have any rights, uses, purpose, attributes, functionalities or features, express or implied. Although Divi Project Tokens may be trade-able, they are not an investment, currency, security, commodity, a swap on a currency, security or commodity or any other kind of financial instrument.

b. Company's Use of Proceeds. Buyer acknowledges and understands that the proceeds from the sale of the Divi Project Tokens will be utilized by Company in its sole discretion.

ARTICLE TWO: Divi Project TOKEN DISTRIBUTION

2.1. Allocation and Distribution of Divi Project Tokens. Divi Project intends to allocate and distribute Divi Project Tokens (the "Divi Project Token Distribution") in accordance with the material specifications as set forth in Exhibit A to this Agreement which includes details regarding the timing (the "Divi Project Distribution Period") and pricing of the Divi Project Token Distribution and the amount of Divi Project Tokens that will be distributed. During the Divi Project Distribution Period, Divi Project will provide specific procedures on how Buyer should purchase Divi Project Tokens through the official Website. By purchasing Divi Project Tokens, Buyer acknowledges and understands and has no objection to such procedures and material specifications. Failure to use the official Website and follow such procedures may result in Buyer not receiving any Divi Project Tokens. Any buyer of Divi Project Tokens may lose some or all of the amounts paid in exchange for Divi Project Tokens, regardless of the purchase date. The access or use of the Divi Project Distribution Contract, access or use of the Divi Project Token Contract and/or the receipt or purchase of Divi Project through any other means other than the official Website are not sanctioned or agreed to in any way by the Divi Project Parties. Buyer should take great care that the website used to purchase Divi Project Tokens has the following universal resource locator (URL): <https://diviproject.org>

2.2. No U.S. Buyers. The Divi Project Tokens are not being offered to U.S. persons. U.S. persons are strictly prohibited and restricted from using the Divi Project Distribution Contract, using the Divi Project Token Contract and/or purchasing Divi Project Tokens and Company is not soliciting purchases by U.S. persons in any way. If a U.S. person uses the Divi Project Distribution Contract, uses the Divi Project Token Contract and/or purchases Divi Project Tokens, such person has done so and entered into this Agreement on an unlawful, unauthorized and fraudulent basis and this Agreement is null and void. Company is not bound by this Agreement if this Agreement has been entered into by a U.S. person as Buyer or Buyer has entered into this Agreement or has purchased Divi Project Tokens on behalf of a U.S. person,

and Company may take all necessary and appropriate actions, in its sole discretion, to invalidate this Agreement, including referral of information to the appropriate authorities. Any U.S. person who uses the Divi Project Distribution Contract, uses the Divi Project Token Contract and/or purchases Divi Project Tokens or enters this Agreement on an unlawful, unauthorized or fraudulent basis shall be solely liable for, and shall indemnify, defend and hold harmless Divi Project and Divi Project's respective past, present and future employees, officers, directors, contractors, consultants, equity holders, suppliers, vendors, service providers, parent companies, subsidiaries, affiliates, agents, representatives, predecessors, successors and assigns (collectively, the "Divi Project Parties") from any damages, losses, liabilities, costs or expenses of any kind, whether direct or indirect, consequential, compensatory, incidental, actual, exemplary, punitive or special and including, without limitation, any loss of business, revenues, profits, data, use, goodwill or other intangible losses (collectively, the "Damages") incurred by a Divi Project Party that arises from or is a result of such U.S. person's unlawful, unauthorized or fraudulent use of the Divi Project Distribution Contract, unauthorized use of the Divi Project Token Contract and/or the receipt or purchase of Divi Project Tokens.

2.3. Allocation and Sale of Divi Project Tokens to Divi Project Parties. Buyer understands and consents to the participation of the Company's past, present and future employees, officers, directors, contractors, consultants, equity holders, suppliers, vendors and service providers in the purchase of Divi Project Tokens, including people who may work on the development and implementation of the Divi Project Software or who may work for Divi Project's future businesses which Divi Project may establish with a portion of the proceeds from the Divi Project Token Distribution. All such Divi Project Parties will participate on the same terms as every other buyer of Divi Project Tokens and will be bound by this Agreement.

2.4. No Representations and Warranties. The Divi Project Tokens will be distributed to buyers thereof pursuant to the Divi Project Distribution Contract and the Divi Project Token Contract. None of the Divi Project Parties makes any representations or warranties, express or implied, including, without limitation, any warranties of title or implied warranties of merchantability or fitness for a particular purpose with respect to the Divi Project Distribution Contract, the Divi Project Token Contract or the Divi Project Tokens or their utility, or the ability of anyone to purchase or use the Divi Project Tokens. Without limiting the foregoing, none of the Divi Project Parties represent or warrant that the process of purchasing the Divi Project Tokens or receiving the Divi Project Tokens will be uninterrupted or error-free or that the Divi Project Tokens are reliable and error-free. As a result, Buyer acknowledges and understands that Buyer may never receive Divi Project Tokens and may lose the entire amount Buyer paid to Company. Buyer shall provide an accurate digital wallet address to Company for receipt of any Divi Project Tokens distributed to Buyer pursuant to the Divi Project Distribution Contract and the Divi Project Token Contract.

2.5. Not an Offering of Securities, Commodities, or Swaps. The sale of Divi Project Tokens and the Divi Project Tokens themselves are not securities, commodities, swaps on either securities or commodities or a financial instrument of any kind. Purchases and sales of Divi Project Tokens are not subject to the protections of any laws governing those types of financial instruments. This Agreement and all other documents referred to in this Agreement including the White Paper do not constitute a prospectus or offering document, and are not an offer to sell, nor the solicitation of an offer to buy an investment, a security, commodity, or a swap on

either a security or commodity.

2.6. Not an Investment. Buyer should not participate in the Divi Project Token Distribution or purchase Divi Project Tokens for investment purposes. Divi Project Tokens are not designed for investment purposes and should not be considered as a type of investment. Within forty-eight (48) hours from the end of the Divi Project Distribution Period, all Divi Project Tokens will no longer be transferable and the Divi Project Token Contract will prevent all further transfers and public key mappings. At this point, the distribution of Divi Project Tokens will be complete. Buyer acknowledges, understands and agrees that Buyer should not expect and there is no guarantee or representation or warranty by Company that: (a) the Divi Project Software will ever be adopted; (b) the Divi Project Software will be adopted as developed by Divi Project and not in a different or modified form; (c) a blockchain utilizing or adopting the Divi Project Software will ever be launched; and (d) a blockchain will ever be launched with or without changes to the Divi Project Software and with or without a distribution matching the fixed, non-transferable Divi Project Token balances. Furthermore, Divi Project Tokens will not have any functionality or rights on the Divi Project Platform and holding Divi Project Tokens is not a guarantee, representation or warranty that the holder will be able to use the Divi Project Platform, or receive any tokens utilized on the Divi Project Platform, even if the Divi Project Platform is launched and the Divi Project Software is adopted, of which there is no guarantee, representation or warranty made by Company.

2.7. Not for Speculation. Buyer acknowledges and agrees that Buyer is not purchasing Divi Project Tokens for purposes of investment, speculation, as some type of arbitrage strategy, for immediate resale or other financial purposes.

ARTICLE THREE: NO OTHER RIGHTS CREATED

3.1. No Claim, Loan or Ownership Interest. The purchase of Divi Project Tokens: (a) does not provide Buyer with rights of any form with respect to the Company or its revenues or assets, including, but not limited to, any voting, distribution, redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights; (b) is not a loan to Company; and (c) does not provide Buyer with any ownership or other interest in Company.

3.2. Intellectual Property. Company retains all right, title and interest in all of Company's intellectual property, including, without limitation, inventions, ideas, concepts, code, discoveries, processes, marks, methods, software, compositions, formulas, techniques, information and data, whether or not patentable, copyrightable or protectable in trademark, and any trademarks, copyright or patents based thereon. Buyer may not use any of Company's intellectual property for any reason without Company's prior written consent.

ARTICLE FOUR: SECURITY AND DATA; TAXES

4.1. Security and Data Privacy.

a. Buyer's Security. Buyer will implement reasonable and appropriate measures designed to secure access to: (i) any device associated with Buyer and utilized in connection with Buyer's purchase of Divi Project Tokens; (ii) private keys to Buyer's wallet or account; and (iii) any other username, passwords or other login or identifying credentials. In the event that Buyer is

no longer in possession of Buyer's private keys or any device associated with Buyer's account or is not able to provide Buyer's login or identifying credentials, Buyer may lose all of Buyer's Divi Project Tokens and/or access to Buyer's account. Company is under no obligation to recover any Divi Project Tokens and Buyer acknowledges, understands and agrees that all purchases of Divi Project Tokens are non-refundable and Buyer will not receive money or other compensation for any Divi Project Tokens purchased.

b. Additional Information. Upon Company's request, Buyer will immediately provide to Company information and documents that Company, in its sole discretion, deems necessary or appropriate to comply with any laws, regulations, rules or agreements, including without limitation judicial process. Such documents include, but are not limited to, passport, driver's license, utility bills, photographs of associated individuals, government identification cards, or sworn statements. Buyer consents to Company disclosing such information and documents in order to comply with applicable laws, regulations, rules or agreements. Buyer acknowledges that Company may refuse to distribute Divi Project Tokens to Buyer until such requested information is provided.

4.2. Taxes. Buyer acknowledges, understands and agrees that: (a) the purchase and receipt of Divi Project Tokens may have tax consequences for Buyer; (b) Buyer is solely responsible for Buyer's compliance with Buyer's tax obligations; and (c) Company bears no liability or responsibility with respect to any tax consequences to Buyer.

ARTICLE FIVE: REPRESENTATIONS AND WARRANTIES OF BUYER

By buying Divi Project Tokens, Buyer represents and warrants to each of the Divi Project Parties that:

5.1. Not a US Person: Buyer is not a U.S. person.

5.2. Authority. Buyer has all requisite power and authority to execute and deliver this Agreement, to use the Divi Project Distribution Contract and the Divi Project Smart Contract, purchase Divi Project Tokens, and to carry out and perform its obligations under this Agreement.

a. If an individual, Buyer is at least 18 years old and of sufficient legal age and capacity to purchase Divi Project Tokens.

b. If a legal person, Buyer is duly organized, validly existing and in good standing under the laws of its domiciliary jurisdiction and each jurisdiction where it conducts business.

5.3. No Conflict. The execution, delivery and performance of this Agreement will not result in any violation of, be in conflict with, or constitute a material default under, with or without the passage of time or the giving of notice: (a) any provision of Buyer's organizational documents, if applicable; (b) any provision of any judgment, decree or order to which Buyer is a party, by which it is bound, or to which any of its material assets are subject; (c) any material agreement, obligation, duty or commitment to which Buyer is a party or by which it is bound; or (d) any laws, regulations or rules applicable to Buyer.

5.4. No Consents or Approvals. The execution and delivery of, and performance under, this Agreement require no approval or other action from any governmental authority or person other than Buyer.

5.5. Buyer Status. Buyer is not subject to any of the disqualifying events listed in Rule 506(d)(1) of Regulation D under the Securities Act of 1933 (a “Buyer Event”), and there is no proceeding or investigation pending or, to the knowledge of Buyer, threatened by any governmental authority, that would reasonably be expected to become the basis for a Buyer Event.

5.6. Buyer Knowledge and Risks of Project. Buyer has sufficient knowledge and experience in business and financial matters, including a sufficient understanding of blockchain or cryptographic tokens and other digital assets, smart contracts, storage mechanisms (such as digital or token wallets), blockchain-based software systems and blockchain technology, to be able to evaluate the risks and merits of Buyer’s purchase of Divi Project Tokens, including but not limited, to the matters set forth in this Agreement, and is able to bear the risks there of, including loss of all amounts paid, loss of Divi Project Tokens, and liability to the Divi Project Parties and others for its acts and omissions, including with limitation those constituting breach of this Agreement, negligence, fraud or willful misconduct. Buyer has obtained sufficient information in order to make an informed decision to purchase Divi Project Tokens.

5.7. Funds; Payments.

a. Funds. The funds, including any fiat, virtual currency or cryptocurrency, Buyer uses to purchase Divi Project Tokens are not derived from or related to any unlawful activities, including but not limited to money laundering or terrorist financing, and Buyer will not use the Divi Project Tokens to finance, engage in, or otherwise support any unlawful activities.

b. Payments. All payments by Buyer under this Agreement will be made only in Buyer’s name, from a digital wallet or bank account not located in a country or territory that has been designated as a “non-cooperative country or territory” by the Financial Action Task Force, and is not a “foreign shell bank” within the meaning of the U.S. Bank Secrecy Act (31 U.S.C. § 5311 et seq.), as amended, and the regulations promulgated there under by the Financial Crimes Enforcement Network, as such regulations may be amended from time to time.

5.8. Miscellaneous Regulatory Compliance.

a. Anti-Money Laundering; Counter-Terrorism Financing. To the extent required by applicable law, Buyer complies with all anti-money laundering and counter-terrorism financing requirements.

b. Sanctions Compliance. Neither Buyer, nor any person having a direct or indirect beneficial interest in Buyer or Divi Project Tokens being acquired by Buyer, or any person for whom Buyer is acting as agent or nominee in connection with Divi Project Tokens, is the subject of sanctions administered or enforced by any country or government (collectively, “Sanctions”) or is organized or resident in a country or territory that is the subject of country-wide or

territory-wide Sanctions.

ARTICLE SIX: DISCLAIMERS

6.1. Buyer expressly acknowledges, understands and agrees that Buyer is using the Divi Project Distribution Contract, the Divi Project Token Contract and purchasing Divi Project Tokens at the Buyer's sole risk and that the Divi Project Distribution Contract, the Divi Project Token Contract and Divi Project Tokens are each provided, used and acquired on an "AS IS" and on an "AS AVAILABLE" basis without representations, warranties, promises or guarantees whatsoever of any kind by Company and Buyer shall rely on its own examination and investigation thereof.

6.2. No Representation or Warranty. EXPRESSLY DISCLAIMS ALL
(A) COMPANY DOES NOT MAKE AND REPRESENTATIONS AND WARRANTIES,

EXPRESS, IMPLIED OR STATUTORY; AND (B) WITH RESPECT TO THE Divi Project DISTRIBUTION CONTRACT, THE Divi Project TOKEN CONTRACT AND THE Divi Project TOKENS, COMPANY SPECIFICALLY DOES NOT REPRESENT AND WARRANT AND EXPRESSLY DISCLAIMS ANY REPRESENTATION OR WARRANTY, EXPRESS, IMPLIED OR STATUTORY, INCLUDING WITHOUT LIMITATION, ANY REPRESENTATIONS OR WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY, USAGE, SUITABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE, OR AS TO THE WORKMANSHIP OR TECHNICAL CODING THEREOF, OR THE ABSENCE OF ANY DEFECTS THEREIN, WHETHER LATENT OR PATENT.

ARTICLE SEVEN: RISKS

Divi Project TOKENS MAY HAVE NO VALUE. BUYER MAY LOSE ALL AMOUNTS PAID. Buyer has carefully reviewed, acknowledges, understands and assumes the following risks, as well as all other risks associated with the Divi Project Tokens (including those not discussed herein), all of which could render the Divi Project Tokens worthless or of little value:

7.1. No Rights, Functionality or Features. Divi Project Tokens have no rights, uses, purpose, attributes, functionalities or features, express or implied. Divi Project Tokens do not entitle holders to participate on the Divi Project Platform, even if the Divi Project Platform is launched and the Divi Project Software's development is finished and the Divi Project Software is adopted and implemented.

7.2. Divi Project Platform. Buyer should not purchase Divi Project Tokens in reliance on the Divi Project Platform because Divi Project Tokens are not usable on the Divi Project Platform and do not entitle Buyer to anything with respect to the Divi Project Platform.

7.3. Purchase Price Risk. The distribution of Divi Project Tokens will occur at the end of of the Divi Project Distribution Period. The purchase price a buyer receives for Divi Project Tokens depends upon the phase. Everyone sending ETH during the same phase receives the same price. Divi Project reserves the right to change the duration of the Divi Project Distribution Period for any reason, including, without limitation, bugs in the Divi Project Distribution Contract or the Divi Project Token Contract or the unavailability of the Website or

other unforeseen procedural or security issues.

- Divi Project Delay Risk. On the Ethereum blockchain, timing of block production is determined by proof of work so block production can occur at random times. For example, ETH contributed to the Divi Project Smart Contract in the final seconds of a distribution period may not get included for that period. Buyer acknowledges and understands that the Ethereum blockchain may not include the Buyer's transaction at the time Buyer expects and Buyer may not receive Divi Project Tokens the same day Buyer sends ETH.

7.5. Ethereum Blockchain. The Ethereum blockchain is prone to periodic congestion during which transactions can be delayed or lost. Individuals may also intentionally spam the Ethereum network in an attempt to gain an advantage in purchasing cryptographic tokens. Buyer acknowledges and understands that Ethereum block producers may not include Buyer's transaction when Buyer wants or Buyer's transaction may not be included at all.

7.6. Ability to Transact or Resell. Buyer may be unable to sell or otherwise transact in Divi Project Tokens at anytime, or for the price Buyer paid. By using the Divi Project Distribution Contract or the Divi Project Token Contract or by purchasing Divi Project Tokens, Buyer acknowledges, understands and agrees that: (a) Divi Project Tokens may have no value; (b) there is no guarantee or representation of liquidity for the Divi Project Tokens; and (c) the Divi Project Parties are not and shall not be responsible for or liable for the market value of Divi Project Tokens, the transferability and/or liquidity of Divi Project Tokens and/or the availability of any market for Divi Project Tokens through third parties or otherwise.

7.7. Token Security. Divi Project Tokens may be subject to expropriation and or/theft. Hackers or other malicious groups or organizations may attempt to interfere with the Divi Project Distribution Contract, the Divi Project Token Contract or the Divi Project Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. Furthermore, because the Ethereum platform rests on open source software and Divi Project Tokens are based on open source software, there is the risk that Ethereum smart contracts may contain intentional or unintentional bugs or weaknesses which may negatively affect the Divi Project Tokens or result in the loss of Buyer's Divi Project Tokens, the loss of Buyer's ability to access or control Buyer's Divi Project Tokens or the loss of ETH in Buyer's account. In the event of such a software bug or weakness, there may be no remedy and holders of Divi Project Tokens are not guaranteed any remedy, refund or compensation.

7.8. Access to Private Keys. Divi Project Tokens purchased by Buyer may be held by Buyer in Buyer's digital wallet or vault, which requires a private key, or a combination of private keys, for access. Accordingly, loss of requisite private key(s) associated with Buyer's digital wallet or vault storing Divi Project Tokens will result in loss of such Divi Project Tokens, access to Buyer's Divi Project Token balance and/or any initial balances in blockchains created by third parties. Moreover, any third party that gains access to such private key(s), including by gaining access to login credentials of a hosted wallet or vault service Buyer uses, may be able to misappropriate Buyer's Divi Project Tokens. Company is not responsible for any such losses.

7.9. Divi Project Tokens May Become Non-Transferable. Buyer acknowledges and

understands that Divi Project Tokens May become non-transferrable within forty-eight (48) hours after the end of the Divi Project Distribution Period. At this time, Buyer might no longer be able to map a public key to Buyer's account and Buyer will not be able to transfer Divi Project Tokens on the Ethereum blockchain. Some cryptocurrency exchanges may on their own accord enable Divi Project Tokens to continue trading, but the exchanges may be unable to accept new deposits or authorize withdrawals of Divi Project Tokens.

7.10. New Technology. The Divi Project Software and the Divi Project Platform and all of the matters set forth in the White Paper are new and untested. The Divi Project Software might not be capable of completion, implementation or adoption. It is possible that no blockchain utilizing the Divi Project Software will ever be launched and there may never be an operational Divi Project Platform. Buyer should not rely on the Divi Project Software or the ability to receive tokens associated with the Divi Project Platform in the future. Even if the Divi Project Software is completed, implemented and adopted, it might not function as intended, and any tokens associated with a blockchain adopting the Divi Project Software may not have functionality that is desirable or valuable. Also, technology is changing rapidly, so the Divi Project Tokens and any tokens transferable on the Divi Project Platform may become outdated.

7.11. Reliance on Third-Parties. Even if completed, the Divi Project Software will rely, in whole or partly, on third parties to adopt and implement it and to continue to develop, supply, and otherwise support it. There is no assurance or guarantee that those third parties will complete their work, properly carry out their obligations, or otherwise meet anyone's needs, all of which might have a material adverse effect on the Divi Project Software and Divi Project Platform.

7.12. Failure to Map a Public Key to Buyer's Account. Failure of Buyer to map a public key to Buyer's account may result in third parties being unable to recognize Buyer's Divi Project Token balance on the Ethereum blockchain when and if they configure the initial balances of a new blockchain based upon the Divi Project Software of which Company makes no representation or guarantee.

7.13. Exchange & Counterparty Risks. If Buyer sends ETH to the Divi Project Token Contract from an exchange or an account that Buyer does not control, pursuant to the Divi Project Token Contract, Divi Project Tokens will be allocated to the account that has sent ETH; therefore, Buyer may never receive or be able to recover Buyer's Divi Project Tokens. Furthermore, if Buyer chooses to maintain or hold Divi Project Tokens through a cryptocurrency exchange or other third party, Buyer's Divi Project Tokens may be stolen or lost. In addition, third parties may not recognize Buyer's claim to any derivative tokens if and when launched by third parties according to the distribution rules set in the Divi Project Software. By using the Divi Project Distribution Contract, using the Divi Project Token Contract and/or by purchasing Divi Project Tokens, Buyer acknowledges and agrees that Buyer sends ETH to the Divi Project Token Contract through an exchange account and/or holds Divi Project Tokens on a cryptocurrency exchange or with another third party at Buyer's own and sole risk.

7.14. Changes to the Divi Project Software. The Divi Project Software is still under development and may undergo significant changes overtime. Although Company intends for the Divi Project Software to have the features and specifications set forth in the White Paper, Company may make changes to such features and specifications for any number of reasons, and

any party that adopts the Divi Project Software and launches the Divi Project Platform also may make changes, any of which may mean that the Divi Project Platform does not meet Buyer's expectations.

7.15. Risk of Alternative Blockchains based on Divi Project Software. The Divi Project Software will not likely be licensed under an open source license until after the end of the Divi Project Distribution Period; however, it is possible somebody will not respect the Divi Project Software copyright or will modify the Divi Project Software after it has been released under an open source license. Therefore, it is possible for someone to utilize the Divi Project Software to build and launch blockchain protocols using a token distribution other than the one intended for the Divi Project Tokens pursuant to the Divi Project Software both prior to or after the Divi Project Software has become licensed as open source.

7.16. Risk of Lack of Transferability in Blockchain Cryptographic Token. The Divi Project Software is built such that any blockchain that adopts the Divi Project Software will require approval of holders of not less than 15% of the total issued and outstanding Divi Project Tokens before tokens on such blockchain (the "Blockchain Tokens") can be transferred. In other words, if the Divi Project Software is adopted, it will be the responsibility of holders holding at least 15% of the issued and outstanding Divi Project Tokens to adopt one or more blockchains in order for Blockchain Tokens received on such blockchains to be transferrable. Buyer acknowledges, understands and agrees that if the Divi Project Software is adopted and the requisite vote described above is not obtained, Buyer may not be able to transfer any Blockchain Tokens Buyer receives.

7.17. Project Completion. The development of the Divi Project Software may be abandoned for a number of reasons, including, but not limited to, lack of interest from the public, lack of funding, lack of commercial success or prospects, or departure of key personnel.

7.18. Lack of Interest. Even if the Divi Project Software is finished and adopted and the Divi Project Platform is launched, the ongoing success of the Divi Project Platform relies on the interest and participation of third parties like developers. There can be no assurance or guarantee that there will be sufficient interest or participation in the Divi Project Platform.

7.19. Uncertain Regulatory Framework. The regulatory status of cryptographic tokens, digital assets and blockchain technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether governmental authorities will regulate such technologies. It is likewise difficult to predict how or whether any governmental authority may make changes to existing laws, regulations and/or rules that will affect cryptographic tokens, digital assets, blockchain technology and its applications. Such changes could negatively impact Divi Project Tokens in various ways, including, for example, through a determination that Divi Project Tokens are regulated financial instruments that require registration. Company may cease the distribution of Divi Project Tokens, the development of the Divi Project Software or cease operations in a jurisdiction in the event that governmental actions make it unlawful or commercially undesirable to continue to do so.

7.20. Risk of Government Action. As noted above, the industry in which Company operates is

new, and may be subject to heightened oversight and scrutiny, including investigations or enforcement actions. There can be no assurance that governmental authorities will not examine the operations of Company and/or pursue enforcement actions against Company. Such governmental activities may or may not be the result of targeting Company in particular. All of this may subject Company to judgments, settlements, fines or penalties, or cause Company to restructure its operations and activities or to cease offering certain products or services, all of which could harm Company's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the Divi Project Tokens and/or the development of the Divi Project Software.

ARTICLE EIGHT: LIMITATION OF LIABILITY; INDEMNIFICATION

8.1. **Limitation of Liability.** To the fullest extent permitted by applicable law, Buyer disclaims any right or cause of action against the Divi Project Parties of any kind in any jurisdiction that would give rise to any Damages whatsoever, on the part of any Divi Project Party. Each of the Divi Project Parties shall not be liable to Buyer for any type of Damages, even if and notwithstanding the extent a Divi Project Party has been advised of the possibility of such Damages. Buyer agrees not to seek any refund, compensation or reimbursement from a Divi Project Party, regardless of the reason, and regardless of whether the reason is identified in this Agreement.

8.2. **Damages.** In no circumstances will the aggregate joint liability of the Divi Project Parties, whether in contract, warrant, tort or other theory, for Damages to Buyer under this Agreement exceed the amount received by Company from Buyer.

8.3. **Force Majeure.** Buyer understands and agrees that Company shall not be liable and disclaims all liability to Buyer in connection with any force majeure event, including acts of God, labour disputes or other industrial disturbances, electrical, telecommunications, hardware, software or other utility failures, software or smart contract bugs or weaknesses, earthquakes, storms, or other nature-related events, blockages, embargoes, riots, acts or orders of government, acts of terrorism or war, technological change, changes in interest rates or other monetary conditions, and, for the avoidance of doubt, changes to any blockchain-related protocol.

8.4. **Release.** To the fullest extent permitted by applicable law, Buyer releases the Divi Project Parties from responsibility, liability, claims, demands, and/or Damages (actual and consequential) of every kind and nature, known and unknown (including, but not limited to, claims of negligence), arising out of or related to disputes between Buyer and the acts or omissions of third parties.

8.5. **Indemnification.**

a. To the fullest extent permitted by applicable law, Buyer will indemnify, defend and hold harmless and reimburse the Divi Project Parties from and against any and all actions, proceedings, claims, Damages, demands and actions (including without limitation fees and expenses of counsel), incurred by a Divi Project Party arising from or relating to: (i) Buyer's purchase or use of Divi Project Tokens; (ii) Buyer's responsibilities or obligations under this

Agreement; (iii) Buyer's breach of or violation of this Agreement; (iv) any inaccuracy in any representation or warranty of Buyer; (v) Buyer's violation of any rights of any other person or entity; and/or (vi) any act or omission of Buyer that is negligent, unlawful or constitutes willful misconduct.

b. Company reserves the right to exercise sole control over the defense, at Buyer's expense, of any claim subject to indemnification under this Section 8.5. This indemnity is in addition to, and not in lieu of, any other indemnities set forth in a written agreement between Buyer and Company.

ARTICLE NINE: DISPUTE RESOLUTION

- Informal Dispute Resolution. Buyer and Company shall cooperate in good faith to resolve any dispute, controversy or claim arising out of, relating to or in connection with this Agreement, including with respect to the formation, applicability, breach, termination, validity or enforceability thereof (a "Dispute"). If the Parties are unable to resolve a Dispute within ninety (90) days of notice of such Dispute being received by all Parties, such Dispute shall be finally settled by Binding Arbitration as defined in Section 9.2 below.

9.2. Binding Arbitration. Any Dispute not resolved within 90 days as set forth in Section 9.1 shall be referred to and finally resolved by arbitration under the London Court of International Arbitration (LCIA) rules in effect at the time of the arbitration, except as they may be modified herein or by mutual agreement of the Parties. The number of arbitrators shall be one who shall be selected by Company. The seat, or legal place, of arbitration shall be London, England. The language to be used in the arbitral proceedings shall be English. The governing law of the Agreement shall be as set forth in Section 10.1 herein. The arbitration award shall be final and binding on the Parties ("Binding Arbitration"). The Parties undertake to carry out any award without delay and waive their right to any form of recourse insofar as such waiver can validly be made. Judgment upon the award may be entered by any court having jurisdiction thereof or having jurisdiction over the relevant Party or its assets. Company and Buyer will each pay their respective attorneys' fees and expenses. Notwithstanding the foregoing, Company reserves the right, in its sole and exclusive discretion, to assume responsibility for any or all of the costs of the arbitration.

9.3. No Class Arbitrations, Class Actions or Representative Actions. Any dispute arising out of or related to this Agreement is personal to Buyer and Company and will not be brought as a class arbitration, class action or any other type of representative proceeding. There will be no class arbitration or arbitration in which an individual attempts to resolve a dispute as a representative of another individual or group of individuals. Further, a dispute cannot be brought as a class or other type of representative action, whether within or outside of arbitration, or on behalf of any other individual or group of individuals.

ARTICLE TEN: MISCELLANEOUS

10.1. Governing Law and Venue. This Agreement shall be governed in all respects, including as to validity, interpretation and effect, by the laws of the Cayman Islands, without giving effect to its principles or rules of conflict of laws, to the extent such principles or rules are not

mandatorily applicable by statute and would permit or require the application of the laws of another jurisdiction.

10.2. Assignment. Buyer shall not assign this Agreement without the prior written consent of Divi Project. Any assignment or transfer in violation of this Section 10.2 will be void. Company may assign this Agreement to an affiliate. Subject to the foregoing, this Agreement, and the rights and obligations of the Parties here under, will be binding upon and inure to the benefit of their respective successors, assigns, heirs, executors, administrators and legal representatives.

10.3. Entire Agreement. This Agreement, including the exhibits attached hereto and the materials incorporated herein by reference, constitutes the entire agreement between the Parties and supersedes all prior or contemporaneous agreements and understandings, both written and oral, between the Parties with respect to the subject matter hereof, including, without limitation, any public or other statements or presentations made by any Divi Project Party about the Divi Project Tokens, the Divi Project Software, the Divi Project Platform, Blockchain Tokens or any other tokens on the Divi Project Platform.

10.4. Severability. If any provision of this Agreement is determined by a court of competent jurisdiction to be invalid, inoperative or unenforceable for any reason, the provision shall be modified to make it valid and, to the extent possible, effectuate the original intent of the Parties as closely as possible in an acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the fullest extent possible.

10.5. Modification of Agreement. Company may modify this Agreement at any time by posting a revised version on the Website, available at <https://diviproject.org>. The modified terms will become effective upon posting. It is Buyer's responsibility to check the Website regularly for modifications to this Agreement. This Agreement was last modified on the date listed at the beginning of this Agreement.

10.6. Termination of Agreement; Survival. This Agreement will terminate upon the completion of all sales in the Divi Project Token Distribution. Company reserves the right to terminate this Agreement, in its sole discretion, in the event that Buyer breaches this Agreement. Upon termination of this Agreement: (a) all of Buyer's rights under this Agreement immediately terminate; (b) Buyer is not entitled to a refund of any amount paid; and (c) Articles 3, 4, 6, 7, 8, 9, and 10 will continue to apply in accordance with their terms.

10.7. No Waivers. The failure by Company to exercise or enforce any right or provision of this Agreement will not constitute a present or future waiver of such right or provision nor limit Company's right to enforce such right or provision at a later time. All waivers by Company must be unequivocal and in writing to be effective.

10.8. No Partnership; No Agency; No Third Party Beneficiaries. Nothing in this Agreement and no action taken by the Parties shall constitute, or be deemed to constitute, a partnership, association, joint venture or other co-operative entity between the Parties. Nothing in this Agreement and no action taken by the Parties pursuant to this Agreement shall constitute, or be deemed to constitute, either Party the agent of the other Party for any purpose. No Party has, pursuant to this Agreement, any authority or power to bind or to contract in the name of the

other Party. This Agreement does not create any third party beneficiary rights in any person.

10.9. Electronic Communications. Buyer agrees and acknowledges that all agreements, notices, disclosures and other communications that Company provides Buyer pursuant to this Agreement or in connection with or related to Buyer's purchase of Divi Project Tokens, including this Agreement, may be provided by Company, in its sole discretion, to Buyer, in electronic form.

EXHIBIT A

Divi Project TOKEN DISTRIBUTION(DIVX)

Start and end times are based on Ethereum Block numbers <https://ethstats.net>

The Divi Project Token Distribution will take place over approximately 60 days starting on September 12, 2017 at block# 4266000. Divi Project Tokens will be distributed according to the schedule below:

Private sale will be distributed during a 30 day period beginning on September 12, 2017 at block# 4266000 and ending 30 days later at block# 4438799

- Token Sale Phase 1, **30% bonus** Divi Project Tokens beginning on October 12, 2017 at block# 4438800 and ending ten days later at block# 4496399.
- Token Sale Phase 2, **15% bonus** Divi Project Tokens beginning on October 11, 2017 at block# 4496400 UTC and ending 10 days later at block#4553999 .
